Dive Deep into Interests and Career Development

Suggested timeframe of completion: Beginning of School Year- October 1

/wp-content/uploads/2019/09/11th-Grade-Video_720.mp4

This year is all about preparing for college and a career. You will explore potential careers and make plans to get you started on making your goals a reality.

You will notice that your activities for this grade level include some you may have completed in previous grades. Your life has changed so much since then that it's a good idea to review the activities. You can use them to confirm what you already know or you might learn something new about yourself. Either way, updating your plan will make your decision-making much easier next year.

Think about the activities you have completed in past years. As you think about your plans after high school answer the following questions:

Since starting the new school year have there been any last-minute changes that you made to your plans after high school graduation?

Are you still on track to meet your current goals? If not, what can you do to help you get back on track?

Are you still interested in the plan that you are following? If not, what can you do about it?

What electives are you interested in taking this year?
