Make Real World Connections

Suggested timeframe of completion: Compete alongside High School course registration: March 1 - May 30

Did you know that the courses you take in high school can help you reach your future career goals? For example, if you are interested in being a YouTube or Social Media Influencer, think about taking public speaking and entrepreneurship classes. Want to be an environmental engineer? Try adding computer applications and natural resource management to your course planner. If you'd like to be a police detective, taking classes like psychology and physical education can set you up for success.

Now it's your turn to think about your favorite career(s) and how the classes offered at your high school might be able to help you achieve your career goals.

What would you say are your top three career ideas right now?
